

Where we can submit the paper

Simple venue and deadline sheet for supervisor review

20 September 2026

Venue	When	Due date	Fit for this paper
IEEE T-BIOM	Submit now	Rolling. No annual deadline.	Best fit
IEEE TIFS	Submit now	Rolling. No annual deadline.	Ambitious
Pattern Recognition	Submit now	Rolling. No annual deadline.	Possible
Computers & Security	Submit now	Rolling. No annual deadline.	Good alternative
IJCB 2026	Closed	10 April 2026. Deadline passed.	Best conference fit
IJCB 2027	Wait for call	Not announced as of 20 Sep 2026.	Future option

Recommended first choice

Submit to IEEE T-BIOM after the professor and coauthors complete the final scientific review.

Why: the paper is mainly about biometric template security, privacy, and identity linkage.

Before submission

1. Confirm the final claims, references, ethics statement, and permitted data use.
2. Format the manuscript using the chosen venue's current author instructions.
3. Submit to only one venue at a time.
4. Recheck the venue website on submission day in case its rules changed.

Rolling means regular journal papers can be submitted throughout the year. It does not guarantee fast review or acceptance.
